

Solano Grown
Everything Eggs Workshop
September 21, 2011
9am-12:00 Noon
501 Texas St.
Fairfield, CA 94533

The public demand for farm fresh eggs is at an all-time high, providing an opportunity for those interested in selling eggs directly off farm.

This workshop is designed for new and existing producers or those who are just considering egg production as a market for the future.

We have a great panel who will be presenting a broad overview of the factors which effect egg marketing. We hope to provide you with some insights, information and an opportunity to ask questions so that you can plan effectively for your business.
