Introduction

Please be advised that the County of Solano Solid Waste Local Enforcement Agency (LEA) received and approved a Transfer/Processing Report (TPR) amendment to the Solid Waste Facility Permit for the Recology Vallejo Large Volume Transfer/Processing Facility. The LEA is certified by the California Department of Resources, Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste facilities within the County of Solano.

Description of Changes

The TPR amendment addresses the following changes:

- Corrected the number of newspaper and cardboard bales included in each shipping container (pages 7, 19)
- Clarification on the number of deliveries to be load checked and documented (pages 10, 13, Load Check Program page 1)
- Clarification of the load check procedure for the food and green waste bunker to focus on hazardous materials (pages 10, 13, Load Check Program page 1)
- Clarification on the removal and storage of hazardous and prohibited materials (page 10)
- Correction of the name of hazardous and prohibited waste storage container from "red bin" to "labeled drum" (page 14, Load Check Program page 2)

LEA's Determination

Pursuant to Title 27, California Code of Regulations, section 21665(c), the LEA reviewed the application and determined that the proposed changes are consistent with State Minimum Standards, are consistent with all adopted CEQA documents, and does not conflict with the existing Solid Waste Facilities Permit. The LEA approved the amendment on March 25, 2015.
