

## Establishing Priorities for Work Group Recommendations

Please rate your recommendations, using the following criteria:

- (1) What is the recommendation?
- (2) Which populations does the recommendation concern?
- (3) Which MHSA essential elements (1-Consumer/family driven, 2-individualized services, 3-wellness and recovery, 4-cultural competence) are supported by the recommendation?
- (4) Is it powerful: will it have significant impact, meet an important, unmet need?
- (5) Is it affordable, considering other funding sources, potential funding reductions? (Include at least one low or no-cost recommendation)
- (6) Is it feasible? Consider capacity, resources, ease of implementation

In Column (7), list recommendations in priority order
